About Me

I am a dedicated front-end developer with expertise in HTML, CSS, JavaScript, Bootstrap, and WordPress. My passion lies in creating responsive and visually compelling websites and landing pages that deliver seamless user experiences across all devices. I thrive on turning ideas into engaging digital solutions, ensuring both functionality and aesthetics are perfectly aligned.

Experience

Bits Collision

2024 - Present

Karachi - Pakistan

At BitsCollision, I engineer responsive and visually appealing websites and landing pages using HTML, CSS, JavaScript, and Bootstrap. I transform design ideas into interactive, user-centric experiences that work flawlessly across devices. My role involves delivering high-quality, performance-optimized web solutions that boost user engagement.
